

Masks for The Most Vulnerable

JFS is proud to support our client, Abdulkader Hayani, and a group of volunteers in sewing fashionable, double-layer masks. JFS is distributing them to anyone who orders them and asking for a suggested donation of \$18/mask. JFS will donate a second mask in need to a vulnerable client for each \$18 donation received.

1. If you'd like to order some masks for delivery, or share the order form with members of your community, please follow the link [here](#).
2. If you'd like to receive a bulk order for your organization for your use or distribute on your own, please email [Danny Woodward](#).
3. If you have members of your community who would be willing to volunteer sewing masks, please also email [Danny Woodward](#). Here is a [youtube](#) video explaining how to make masks and private tutorials are available!

Please spread the information throughout your community. It is an extraordinary story that JFS and our synagogue partners resettled Abdulkader, his family and 7 other Syrian families just 3 years ago, and now he's made over 2,000 masks to keep our community safe!
